Education

International Institute of Information Technology Bangalore **Oct 2022–July 2027**
Integrated Master of Technology in Electronics and Communication Engineering *CGPA: 3.26/4*

Experience

Wana Create **Aug 2025 – Dec 2025 (Expected)**
Software Engineer Intern *Remote*

- Developing a **native iOS and Android app** for **creative communities** to organize events, learn new skills, and share progress through posts.
- Contributed to the **full software development lifecycle**, including architecture design, feature implementation, testing, and deployment, driving user engagement across **4000+ active users**.

IIIT Bangalore – Ola Krutrim AI (SRIP) **May 2025 – June 2025**
Research Intern *Remote*

- Built a robust **data processing pipeline** using Python to evaluate **Large Language Models** on complex medical datasets (e.g., MedMCQA).
- Analyzed **system-level challenges** in AI development, focusing on **domain adaptation** and **performance optimization** for diverse data inputs.

Achievements

Amazon ML Challenge 2025 **Oct 2025**

- Ranked **156th All India** (out of **80,000+ participants**) with a best rank of **15th**, developing a **multimodal price predictor** using product **images and textual descriptions**.

Flipkart GRiD 6.0 **Jan 2025**

- **2nd Runner-Up** among **3500+ teams** for building vision models for inventory management and item freshness.

Accenture Innovation Challenge **Nov 2024**

- **National Winner (200K+ participants)**: Secured first place for developing an **AI tool** that generates code from natural language, reducing boilerplate code generation time by an estimated **40%**.

Projects

RehabConnect | *Flutter, Bluetooth, Unity, Real-Time Data* **Aug 2024–Nov 2024**

- Developed a rehabilitation app for **bluetooth-enabled therapy machines**, achieving **50 ms response times** for real-time interaction and game-based therapy sessions using machine IMU data.
- Incorporated **emergency alerts**, **patient progress tracking**, and **video meet scheduling** features to enable collaborative caregiving with a response time under **2 seconds**, fostering enhanced patient engagement.

Swiftly: P2P Rental | *REST APIs, Django, Next.js, Prisma ORM, SQL* **June 2024–July 2024**

- Built a scalable, high-performance **peer-to-peer rental platform** with robust **RESTful APIs**, ensuring secure **user authentication** and seamless **session management**.
- Integrated features like **real-time chat**, **user ratings**, and **feedback systems**, improving user transparency and achieving a **90% user** satisfaction rate based on simulated user interaction testing.

PayNest | *Next.js, Express.js, Prisma ORM, PostgreSQL* **May 2024–June 2024**

- Built a high-throughput wallet transaction simulator capable of processing over **1,000** transactions per second
- Employed **Turborepo** for scalable monorepo management and **PostgreSQL** for robust data integrity and security, supporting large-scale financial simulations.

Lawer | *Flutter, Gen AI, Django, Firebase* **Jan 2023–March 2023**

- Engineered a comprehensive legal resource app with **advanced keyword-based** and **AI-assisted case search**, achieving **90% match accuracy** while maintaining sub-**300 ms query times**.
- Integrated **Generative AI** capabilities to provide context-aware legal suggestions, improving **user decisions.**
- Enhanced accessibility by adding **AI-driven predictive search**, allowing users to quickly locate relevant statutes, case studies, and legal precedents.

Technical Skills

Languages: C++, Java, Python, JavaScript, Dart
Frameworks/Tools: React, Next.js, Express.js, Django, Flutter, React Native, PyTorch, Turborepo
Databases: PostgreSQL, SQL, MongoDB , Firebase , Redis , Prisma ORM
Cloud/Other: AWS, Git, GitHub Actions, Docker, REST APIs, Caching, Async IO

Leadership / Extracurricular

Google Developer Student Club, IIIT Bangalore **Sep 2024–Aug 2025**
Head of Web3 and Blockchain Projects/Initiatives

Zense Club, IIIT Bangalore **Aug 2024–Aug 2025**
Web Development Head - Led the design and implementation of technical solutions for the club's web presence
